About Me

I'm looking to combine my skills in Linguistics and Machine Learning in the field of Natural Language Processing. This is the field for me because I love problem solving and being creative.

Work Experience

Freelancer Linguist at Sandberg Translation Partners — Jun - July 2022
AI training data creation in Finnish for Amazon LEX chatbot.

Linguist at Lausanne Business Solutions — Feb – April 2022
AI training data transcription and annotation in Finnish for a chatbot project.

Food Production worker at Evertaste — Oct 2021 – present
Part-time job in food production.

Food Production worker at Maustaja — April 2016 – Aug 2020
Summer job in food production.

Education

2019 – present **Bachelor's Programme in languages at University of Helsinki**
– Major: English Philology
– Minor: Linguistics with a focus on Language Technology.

Courses

Machine Learning for Linguists, spring 2022. Grade: 4
Basic of machine learning. Using machine learning to solve natural language processing tasks.

Machine Translation, spring 2022. Grade: 4
Training, testing and evaluating a neural machine translation system including the pre-and post-processing steps. Reading and presenting scientific papers on current challenges in machine translation.

Mathematics for Linguists, spring 2022. Grade: 4
Mathematical skills for language technology, such as basics of statistics, vectors and matrices

Programming for Linguists, spring 2022. Grade: 4
Basic of programming with Python

Skills

– Python
– Command line tools
– Github
– Notebooks
– Neural Machine Translation
– Finnish, English, Swedish
